Unfortunately, that is not something that would come to the Department of Safety. We would suggest that you contact US Representative Steve Cohen.

Thanks,

I cannot speak for the Tennessee Department of Safety but I had assumed that they referred me to Congressman Steve Cohen when I asked for their help because the Memphis International Airport is at the center of his 9th District and is completely surrounded by his constituents. Residents of Memphis' 9th District have the highest risk of impact from any aircraft affected by the Hurricane Creek defect. – Guy Cobb
