Dear Ms. Frederick,

You called me on the morning of March 7, 2011 after receiving my letter addressed to US Attorney Ed Stanton III. The letter contained information specific to allegations of corruption by the Memphis Shelby County Airport Authority. You told me that the US Attorney's office did not perform investigations but instead prosecuted such cases. You said that you would "refer" my information to the Federal Bureau of Investigation and that you would fax my information to the FBI's office.

I have not received any contact from the FBI and so I need a confirmation, in writing, from you that states that you did in fact send my letter and information to the FBI. Please include date and method sent (fax, mail, phone call).

Thank you,

Guy Cobb
