

April 14, 2010

Mayor A.C. Wharton Jr.
City Hall
125 N. Main Street, Room 700
Memphis, TN 38103

Mayor Wharton,

I writing to ask for your help concerning the defect I discovered in 2006 as a FedEx Business Continuity and Disaster Recovery planner with Runway 9/27 at Memphis International Airport. I have copied you on all of the emails I have sent to the Memphis Shelby County Airport Authority dating back to December of 2009 and have sent multiple others requesting help and information about who actually owns the Hurricane Creek tunnel which runs beneath the runway as it relates to maintenance, liability, and how it can be publicly inspected for damage.

As I have stated before I realize your wife Ruby is on the Board of Directors of the Memphis Airport Authority and that this may be a conflict of interest for you whereby you are unable to comment. If this is the case I would only ask that you respond to confirm this conflict and I will stop trying to contact you.

For the record I would state that I am both a City of Memphis resident and supporter of you and your new administration and am looking forward to your leadership.

Thank you for any help,

Guy Cobb
