FAA Whistleblower Protection Program Manager  
FAA Headquarters, Room 835  
800 Independence Avenue, SW  
Washington, D.C. 20591

Dear Program Manager,

My name is Guy Cobb and I am contacting you to see when someone with your program will be contacting me to discuss the defect I discovered as a FedEx Business Continuity and Disaster Recovery planner in 2006 with Runway 9/27 at Memphis International Airport.

Michael Moon, my Federal OSHA investigator, has stated that he forwarded your office my documentation on December 15, 2009. I need for your office to confirm that you received this information during this time frame and would like to receive a status update as to where you are with your investigation.

Thank you in advance for your response,

Guy Cobb
